
Code for Sustainable Homes – Research

Posted by Oliver - 2009/01/13 16:39

Dear All,

The Department for Communities and Local Government has appointed Andrew Irving Associates to carry out research amongst users and potential users of the Code Technical Guide. As part of this exercise they need to get the views of various different users of the Guide including people who self-build, Code Assessors, Architects, Building Control officers, Surveyors etc.

The aim of the research is to get a cross section of users' responses to the way the Guide is currently formulated with a view to guiding future development. If you feel this relates to you, we would be very interested in interviewing you during the next few weeks.

If you want any further information about the research please do not hesitate to contact Jeanette Henderson at CLG on jeannette.henderson@communities.gsi.gov.uk. Alternatively, call me on 020 8442 2233 or email me on the address below.

Can I take this opportunity to thank you on behalf of the Department for your assistance in helping to make sure that this research encompasses a wide range of viewpoints.

Many thanks,

Oliver Bonnington
