
Building a community

Posted by karen - 2009/11/06 18:05

Hello to you all,

My name is Karen and I am a herbalist in Hertfordshire at the mo - Myself and a group of friends would love to build an eco concious community - that has at its centre a project to educate people about green living and health.

We are all interested in moving west and being within easy reach of Bristol -we have had an initial meeting to discuss hopes and dreams and are looking into existing communtiy models.

We are looking for about 40 acres of land on which to create this dream and are also looking for funding for our project as we reckon realistically it'll be about 1million....

Does anyone know about concils that have land to give for co housing projects?

Or any other info that may help us on our journey..

Thank you so much for your time

Karen
