
Ecowood

Posted by tomma100 - 2008/04/23 22:44

hi - this is my first post.

we just had <http://www.ecowoodltd.com/> join as a member of Ethical Junction - I wondered if you knew about it.

looking forward to getting this forum buzzing - I want to link it up to our site, www.ethical-junction.org asap

Best
Tom

Hey Tomma

Ecowood sounds interesting. Not that much info on the website though. If its extrusion based, has it got high embodied energy?

Also would be good to know if it is entirely made from recycled plastic, and not substituted with raw plastic. And what happens to it after its lifetime? Can it be melted down again?

And how does the price compare.

Its hard to get a true comparison of eco-impact. Has BRE reported on it?

Jaxz

Would you like me to invite the guy who runs it in to make some comments? I can't answer any of your questions, I am afraid!
